SUMMARY

Computer Science and Engineering student with practical experience in designing and developing web applications using modern technologies, including Java, MERN Stack, SQL, and Python. Passionate about backend development, problem-solving, and building efficient, scalable solutions. Eager to contribute to a collaborative engineering team while growing as a software developer.

EDUCATION

Bachelor of Science in Computer Science, BRAC University 01/2023 – 09/2026 | Badda, Dhaka
Currently Studying

Higher Secondary Certificate, Dhaka City College 2020 – 2021 | Dhanmondi, Dhaka
GPA-5.00/5.00

Secondary School Certificate, Bindubasini Govt. Boys' High School 2014 – 2019 | Tangail
GPA-5.00/5.00

SKILLS

- Programming: Python, Java, MERN Stack
- Databases: MySQL, MongoDB
- Tools: Git, GitHub
- Concepts: Data Structures & Algorithms, REST APIs, OOP

LANGUAGE

Bengali Native	English Professional Working Proficiency	Hindi Conversational
--------------------------	--	--------------------------------

ACADEMIC & PERSONAL PROJECTS

Travel Management System

Tech Stack: PHP, MySQL, HTML, CSS, JavaScript

- Built a web-based travel management system for managing bookings and travel packages.
- Designed and implemented database schemas with MySQL.
- Developed CRUD functionalities and user authentication.

Hospital Management System

Tech Stack: Java, MySQL

- Designed a desktop application to manage patient records, appointments, and hospital operations.
- Implemented database connectivity and object-oriented design principles.

University Marketplace for Secondhand Products

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a full-stack marketplace for students to buy and sell used products.
- Built RESTful APIs for authentication, product management, and user interactions.
- Designed responsive user interfaces and integrated MongoDB for persistent storage.
- Managed project version control using Git and GitHub.

3D-Arrow-Shooter

Tech Stack: C++, OpenGL

- Developed a 3D game implementing camera movement, collision detection, and interactive gameplay.
- Applied computer graphics concepts including rendering and object transformations.
